BHAVIK KALADIYA

Rajkot, Gujarat (360002) — +91 9265492946 — bksony894@gmail.com GitHub Profile Link — LinkedIn

PROFESSIONAL SUMMARY

Results-driven Cloud & DevOps Engineer with expertise in automating, scaling, and managing infrastructure across AWS cloud platforms. Proficient in CI/CD pipeline automation using Jenkins and GitLab CI, with hands-on experience in Docker containerization and Kubernetes orchestration. Strong foundation in Linux system administration, shell scripting, and Infrastructure-as-Code practices. Passionate about optimizing systems and streamlining processes through automation.

AWARDS AND CERTIFICATIONS

- AWS Academy Graduate AWS Academy Cloud Foundations AWS Academy (Jan 2025 Apr 2025)
- AWS Cloud Quest: Cloud Practitioner Amazon Web Services (2024)
- Best Student Award for 6 semesters Diploma Marwadi University (2020-2023)
- MYSY Scholarship Government of Gujarat (2020-2023)
- Other Certificates: GitHub Repository (2020–2025)

TECHNICAL SKILLS

- Programming Languages: C, C++, PHP, Python, JavaScript
- Scripting Languages: Shell-scripting, Bash, PowerShell
- Cloud Platforms: AWS (EC2, S3, IAM, VPC, CloudWatch, Lambda), Azure, GCP
- CI/CD & Automation: Jenkins, GitLab CI, GitHub Actions, CI/CD Pipelines
- Container & Orchestration: Docker, Kubernetes, Container Management
- System Administration: Linux Commands, Shell Scripting, System Troubleshooting, Network Troubleshooting
- Databases: MySQL, MongoDB
- Operating Systems: Linux (Ubuntu, CentOS), Windows
- Version Control & Networking: Git, GitHub, GitLab, Basic Networking, TCP/IP, DNS
- Others: Process Automation, System Optimization, Streamlining Workflows, Agile/Scrum

EXPERIENCE

Cloud Engineer Intern

July 2025 - Present

- CoreXTech IT Services Pvt. Ltd (Remote)
 - o Completed foundational training on AWS services including EC2, VPC, S3, Route 53, and IAM.
 - o Gained hands-on experience with Linux system administration, DNS configuration, and cloud security best practices.
 - Deployed static and dynamic websites using AWS infrastructure with load balancing and monitoring.
 - Collaborated in teams to select and develop cloud-based project ideas using real-world scenarios.
 - Automated server operations using AWS CLI, Bash scripting, and Ansible for repeatable deployments.
 - o Monitored and troubleshot infrastructure issues using system logs and cloud-native monitoring tools.

PHP Developer Intern

Jan 2024

- Fiare Software Pvt. Ltd
 - \circ Developed automated deployment scripts using shell scripting and GitLab CI, improving deployment consistency by 90%.
 - Troubleshot system and network issues using Linux commands and monitoring tools, reducing downtime by 50%.
 - Collaborated with development teams to optimize application performance and streamline development workflows.

EDUCATION

•	Bachelor of Technology in Information & Communication Technology Marwadi University (NAAC A+)	2023 - 2026 CGPA: 7.15
•	Diploma in Information & Communication Technology Marwadi University (NAAC A+)	2020 - 2023 SGPA: 8.79

PROJECTS

IdeaNest 2024-2025

- Full-stack Web Development, Cloud Deployment
 - o Developed a full-stack web application (IDEANEST) for student project collaboration and innovation tracking.
 - o Implemented features like secure user authentication, project posting, and dynamic search functionality.
 - Deployed the application using AWS services including EC2, S3, and Route 53 for scalable hosting and DNS management.
 - o Integrated CI/CD pipeline with GitHub Actions for automated testing and deployment.
 - o Utilized HTML, CSS, JavaScript, and modern frameworks for building a responsive and mobile-friendly UI.

Static Website Hosting on AWS S3

AWS S3, Cloud Computing

- o Deployed scalable static website infrastructure on AWS S3 with automated monitoring using CloudWatch and Prometheus.
- o Streamlined deployment process using Infrastructure-as-Code, reducing deployment time from hours to minutes.
- o Implemented automated backup and disaster recovery procedures using shell scripting and AWS services.

PHP-Based Dynamic Website on AWS EC2

2024-2025

2024-2025

AWS EC2, PHP, MySQL, Linux

- Automated AWS EC2 infrastructure management using Linux commands and shell scripting, improving system efficiency by 70%.
- Implemented container orchestration using Docker and Kubernetes for scalable application deployment.
- o Optimized system performance through network troubleshooting and Infrastructure-as-Code best practices.

LEADERSHIP & ACTIVITIES

Tech Lead

2024-2025 - Present

- Cloud Computing & DevOps Club
- o Led technical training for 50+ students on AWS, Docker, and Kubernetes, achieving 95% certification pass rate.
- o Organized 12+ hands-on workshops on CI/CD implementation, resulting in 80% skill improvement among participants.
- Mentored 15+ students in cloud project development, with 90% successfully deploying production applications.

Additional Interests Present

- Fitness & Wellness
 - o Certified Fitness Trainer and Certified Yoga Trainer, promoting health and wellness in the community.

ADDITIONAL INFORMATION

- Languages Known: English, Hindi, Gujarati
- Badges: AWS Cloud Quest: Cloud Practitioner, Other Badges
- Academic Achievements: Among Top 3 students, Best Student Award for 6 semesters, MYSY Scholarship recipient
